Develop, design and maintain EducationUSA Spain's Competitive College Club Website!

VIRTUAL STUDENT FEDERAL SERVICE

VSFS

Project Title	Develop, design and maintain EducationUSA Spain's Competitive College Club Website!
Project Summary	Get creative and use your design and website building skills to support EducationUSA Spain's cohort advising program!
Country	Spain

Project Description

This project is to further develop EducationUSA Spain's Competitive College Club's (CCC) website! (www.edusaspainccc.com)

The purpose of this WordPress website, which launched in January 2019, is to explain what CCC is, highlight the accomplishments of its students/alumni, keep the public informed, etc. Please see the additional information section for details on CCC.

The selected intern would be responsible for maintaining the website, creating graphics, updating content and would be encouraged to get creative about how to evolve the current website all while keeping in mind user friendliness and user experience. We would like them to generally follow the current style of the website but also want them to be creative - we encourage new ideas! This project will also include creating content for social media related to the website and CCC, giving them more visibility.

The intern would work with the EducationUSA team for material and feedback. We can't wait to work with you!

Required Skills or Interests

Skill(s)
Coding
Editing and proofreading
Graphic design
Infographic design
Storytelling/blogging/vlogging

Additional Information

EducationUSA Spain's Competitive College Club (CCC) is comprised of the brightest students in Spain who are interested in studying their undergraduate degree in the U.S. The CCC is a two year program during a student's Junior and Senior year, supporting students with researching universities, investigating financial aid options, preparing for SAT/ACT, developing personal essay writing skills and navigating the application process as a whole.

The overall goal of CCC is to provide academic advising and information on all the processes necessary to not only apply, but how to have a stellar application and be a very competitive candidate!

The CCC in Spain started in 2014, with just a few students and is now one of the most active cohort advising programs in Europe and a priority program for the global EducationUSA network.
